

Friendship Club, one of the more enjoyable parts of my day at school.

Ok, so everyone at our school knows what its like to get to school way to early in the morning and have class. The other thing everyone knows at our school is that "Encore" is coming up right after your first class. In other words if you can make it through your first class then you are going to have some time to sleep. Well that was never the case for me. From day one of my high school career I have gone to class and then gone to Friendship Club. Yes there will always be Mondays when everyone wants to sleep or even just sit there, but with buddy's running wild you got to have something to do. So how do we solve that? We dance to loud music, or we play tag in the gym, or you might even get lucky enough to take your favorite buddy on in a game of "SORRY".

Friendship club is not only for the special Ed children, it can also serve as a stress reliever for the rest of the school. By the rest of the school I mean to say that it affects everyone. This past week I was walking down the hall and I saw one of our buddies's dancing, in the middle of the hall, no music was anywhere near. But I saw two kids from friendship club (along with two other students) join in the dance all the way down the hall. Its times like that, that makes me realize what a benefit to everyone this club can be.

Friendship Club Buddy, two years
